

**Responsible use
policy for
mobile
technology in
classrooms**

There are some key values when using mobile devices in classrooms:

1. **Focus**

- Mobile devices are to be used only with the teacher's permission in class.
- Mobile devices are to be on silent at all times, unless if required by the teacher.

2. **Respect**

- Images of any person, pictures or video, are never to be taken and shared without the teacher's and the person's permission.
- Sound is not to be recorded without the teachers' and the person's permission.
- Mobile devices must not be used to bully.

3. **Safety**

- Do not use the device to download inappropriate and illegal content.
- When you use the Internet, your navigation history will be recorded the same way it is when you use a computer.
